Certificate :

1.Full Stack Developer Certification – Achieved from Giri's Tech Hub.

2.Introduction to AI Certificate – Completed from Great Learning.

3.Infosys Online Course – Focused on archive website development.

Interest

- Reading & Learning: Enjoy reading tech blogs, books, and articles to stay updated with the latest industry advancements and best practices.
- Technology & Innovation: Passionate about exploring new tech trends and experimenting with emerging tools and frameworks (e.g., AI, blockchain, or machine learning).

- Developed and integrated RESTful APIs to enhance communication between front-end and back-end systems.
- Collaborated with cross-functional teams to develop high-quality software applications, meeting project deadlines.
- Improved user experience by implementing responsive web designs for seamless functionality across devices.
- Built databases and table structures for web applications.

Projects

Gateway of India.

- Client: Government of Maharashtra
- Location: Mumbai
- Technologies: React.js, Node.js, MongoDB, CSS, Bootstrap, JavaScript
- Roles & Responsibilities:
- Developed responsive UI for a seamless experience across devices.
- Built a notification system with push notifications and real-time updates.
- Created user profile page with data validation and customization features.
- Designed a responsive navbar and user-specific pages.
- Implemented real-time chatting with privacy and moderation features.
- Managed centralized event system for organizing events at Gateway of India.

FreshersZone.

- Client: Globalion Technology Solutions LLP
- Location: Pune
- Technologies: React.js, Node.js, MongoDB, CSS, Bootstrap, JavaScript
- Roles & Responsibilities:
- Developed responsive UI and dynamic job listing pages.
- Integrated real-time notifications, sorting, filtering, and pagination.
- Implemented user registration, profile creation, and job matching features.
- Added client-side validation and company profiles.

FarmData365(Personal Project) .

- Role: Full-stack Developer
- Duration: 1 Months (Under Development)
- Link: [https://farmdata365.netlify.app/]
- Developing FarmData365, a web-based platform designed to help farmers store and manage their daily farming data. The application allows farmers to track various farming activities, making it easier to maintain records and improve productivity.

- Responsibilities:
- Full-stack Development: Building the entire application using React, Bootstrap, Node.js, and MongoDB.
- User Interface: Designing a responsive and intuitive user interface with React and Bootstrap to ensure ease of use.
- Data Management: Using MongoDB for secure, scalable storage of daily farming records, including crop types, weather conditions, irrigation, and more.
- Backend Development: Developing the backend with Node.js to manage API requests and handle data storage efficiently.
- Real-time Data Updates: Implementing features to allow farmers to input and update farming data day by day.

Hardware Billing System for Mahaluxmi Hardware(Personal Project).

- Role: Full-stack Developer
- Duration: 2 Months
- Link: (https://mahalaxmi-hardware.netlify.app/)
- Developed a custom billing and inventory management system for my hardware shop, Mahaluxmi Hardware, to improve operations and enhance customer experience.
- Custom Billing System: Designed and implemented an easy-to-use "Create Bill" feature to streamline the billing process.
- WhatsApp Integration: Enabled customers to receive bills directly via WhatsApp, making transactions more convenient.
- Inventory Management: Integrated real-time inventory tracking to ensure accurate stock management.
- Database: Utilized MongoDB for efficient data storage and handling of customer and inventory information.
- Full-Stack Development: Managed both front-end and back-end development to create a seamless, responsive user experience.

❯❯ Declaration

I, [Bhushan Gulabrao Patil], hereby declare that the details provided above are accurate and reflect my qualifications, skills, and experience to the best of my knowledge. I am committed to upholding honesty and integrity in all professional interactions and can provide further verification or documentation if required.
